ABOUT ME

I am a cybersecurity professional with 2+ years of experience in Red Hat systems and AWS. Currently part of Yeshiva University's Security Operations Center (Spring 2024), with hands-on skills in defending cloud/on-prem systems through Cyberbit Range simulations. I am skilled in OSINT, cryptography, forensics, log/network traffic analysis, and web app exploitation. Passionate about securing infrastructure and solving complex security challenges.

GRADUATE ASSISTANTSHIP

June 2024 – May 2025

Yeshiva University, Katz School of Science and Health, New York, NY

Provided administrative support, coordinated events, assisted with student services, and maintained records and digital content for academic or non-academic departments.

- Maintain accurate data records and assist with database management.
- Support the creation and updating of departmental websites and social media content.
- Perform general administrative tasks such as scheduling, filing, and correspondence.
- Coordinate logistics for departmental events, meetings, and workshops.

EDUCATION

Yeshiva University, Katz School of Science and Health, New York, NY

Master of Science in Cybersecurity, December 2025

4.0 GPA

Relevant Courses: Architecture of Secure Operating Systems, Network, Data and Communication Security, Cybersecurity Audit, Digital Evidence and Computer Forensics, E-Discovery & Digital Forensic, Audit, Assessment & Training, Secure Ops Apps & Dvcs, Risk Mgmt, Cybersecurity Capstone, Leading Tech Orgs

SKILLS

Tools: Ansible, Wireshark, Splunk, AWS CloudFormation, Red Hat Enterprise Linux, AWS EC2, Windows

Security: Open-Source Intelligence, Cryptography, Log Analysis, Network Traffic Analysis, Forensics, Scanning & Reconnaissance, Web Application Exploitation and Enumeration & Exploitation.

PROFESSIONAL EXPERIENCE

NMB BANK

Feb 2021 – Dec 2023

Digital Banking Systems Engineering (3years)

Managed and supported Red Hat and AWS infrastructure for online and mobile banking platforms.

- Implemented automated workflows using Ansible, reducing repetitive tasks and increasing operational efficiency by 20%
- Led infrastructure optimization projects, reducing system downtimes by 15% through proactive monitoring with Splunk and efficient AWS resource management
- Collaborated with cross-functional teams to troubleshoot complex technical issues and maintain security posture.
