EDUCATION

Yeshiva University, Katz School of Science and Health, New York, NY

Master of Science in Cybersecurity, December 2025

Relevant Courses: Architecture of Secure Operating Systems, Network, Data and Communication Security, Cybersecurity Audit, Digital Evidence and Computer Forensics, E-Discovery & Digital Forensic, Audit, Assessment & Training, Secure Ops Apps & Dvcs, Capstone Project & Leading Tech Orgs.

CERTIFICATIONS & MEMBERSHIP

- [National Cyber League](#)
- [ISC2 Cyber Pathway](#)
- [ISC2 Capture The Flag](#)
- [Red Hat System Administration](#)
- [ISACA Membership](#)
- [Cyberbit-SOC Lab Program](#)

PROFESSIONAL EXPERIENCE

Yeshiva University, New York, NY

June 2024 – May 2025

Graduate Assistantship

- Maintain accurate data records and assist with database management.
- Perform general administrative tasks such as scheduling, filing, and correspondence.
- Support the creation and updating of departmental websites and social media content.

NMB Bank

February 2021 – December 2023

Digital Banking Systems Engineering

- Analyzed banking data to support credit risk, segmentation, and operational insights
- Reduced regulatory reporting errors by 35% through automation and standardization of data validation checks.
- Led internal audits and supported external regulatory audits with timely and accurate data reporting.
- Built dashboards and data checks to monitor KRIs and data quality.

PROJECTS

[Cloud Security Monitoring](#)

Spring 2025

- Developed a Splunk app for real-time monitoring and alerting AWS CloudTrail security events.
- Created interactive dashboards for IAM activity, network changes, data access, and EC2 security.
- Implemented pre-configured alerts for threats like unauthorized API calls and root account usage.

[Security Breach Mitigation on Red Hat Systems](#)

Winter 2025

- Developed a Linux hardening script to secure Debian-based systems by automating best practices.
- Implemented security measures including SSH hardening, firewall setup, fail2ban, and auditd.
- Enhanced system integrity through password policies, service minimization, and log configuration.

SKILLS

Tools: Ansible, Wireshark, Splunk, AWS CloudFormation, Red Hat Enterprise Linux, AWS EC2.

Security: Open-Source Intelligence, Cryptography, Log Analysis, Network Traffic Analysis, Forensics, Scanning & Reconnaissance, Web Application Exploitation and Enumeration & Exploitation.
